

# LOGISTICS CENTER FOR PRODUCTION MATERIALS OF ANDREAS STIHL AG & CO. KG

## SLOT/YARD MANAGEMENT

STIHL operates a logistics center for production materials in Waiblingen-Neustadt. The address is:

ANDREAS STIHL AG & Co. KG  
ANDREAS-STIHL-STRASSE 4  
71336 Waiblingen  
Tor 3 / Gate 3

Access to this logistics centre is via an automatic barrier system and is only possible with prior booking of a time slot.

Suppliers and carriers can get such a time slot of opportunity in 3 different ways:

1. Booking on site at the self-service terminal
2. Booking in advance via the WEB portal of our service provider PAARI
3. Allocation of a time slot by a STIHL employee (e.g. in the transport order, this will usually be done when FCL containers are delivered)

Booking in advance, as well as when a time slot is allocated by a STIHL employee, guarantees unloading at a specific time desired by the carrier. If no booking is made in advance but a time slot is booked on site at the self-service terminal by the driver, waiting times may arise.

In order to be able to book time slots in advance via the WEB portal, registration is necessary. This registration is carried out by STIHL. Please send us the following data by e-mail to [yardmanagement@stihl.de](mailto:yardmanagement@stihl.de)

- Company name
- Address
- First name and surname of the contact person
- E-mail address of the contact person

You will then be sent an activation link and instructions on how to register on the PAARI WEB portal.

We will also be happy to answer any questions you may have via our e-mail address [yardmanagement@stihl.de](mailto:yardmanagement@stihl.de)
